Independent Auditor's Report

To the Board of Education of
Turkey Valley Community School District:

I have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Turkey Valley Community School District, Jackson Junction, Iowa, as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements listed in the table of contents. These financial statements are the responsibility of District officials. My responsibility is to express an opinion on these financial statements based on my audit.

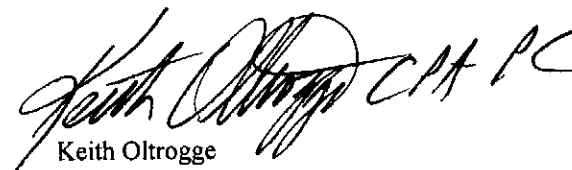

I conducted my audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Turkey Valley Community School District at June 30, 2009, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, I have also issued my report dated December 23, 2009 on my consideration of Turkey Valley Community School District's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of my audit.

Management's Discussion and Analysis and budgetary comparison information on pages 4 through 12 and 34 through 36 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Turkey Valley Community School District's basic financial statements. I previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the five years ended June 30, 2008 (which are not presented herein) and expressed unqualified opinions on those financial statements. Other supplementary information included in Schedules 1 through 4 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in my audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Keith Oltrogge
Certified Public Accountant

December 23, 2009

MANAGEMENT'S DISCUSSION AND ANALYSIS

Turkey Valley Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2009. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2009 FINANCIAL HIGHLIGHTS

- General Fund revenues increased from \$4,665,145 in fiscal year 2008 to \$4,883,919 in fiscal year 2009, while General Fund expenditures increased from \$4,550,895 in fiscal 2008 to \$4,775,256 in fiscal 2009. The District's General Fund balance increased from \$522,077 in fiscal 2008 to \$553,240 in fiscal year 2009, a 5.6% increase.
- The increase in General Fund revenues was attributable to increases in local and federal sources in fiscal 2009. The increase in expenditures was due to an increase in support services expenses.
- An increase in the District's General Fund balance resulted in the District's solvency ratio remained unchanged from 11.5% in 2008 to 11.5% in fiscal 2009. The District's solvency level indicates the District is able to meet unforeseen financing requirements and presents a sound risk for the timely repayment of short-term debt obligations.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of Turkey Valley Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Turkey Valley Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Turkey Valley Community School District acts solely as an agent or custodian for the benefit of those outside of County government.

Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year.

Other Supplementary Information provides detailed information about the non-major Special Revenue Funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

Figure A-1
Turkey Valley Community School District Annual Financial Report

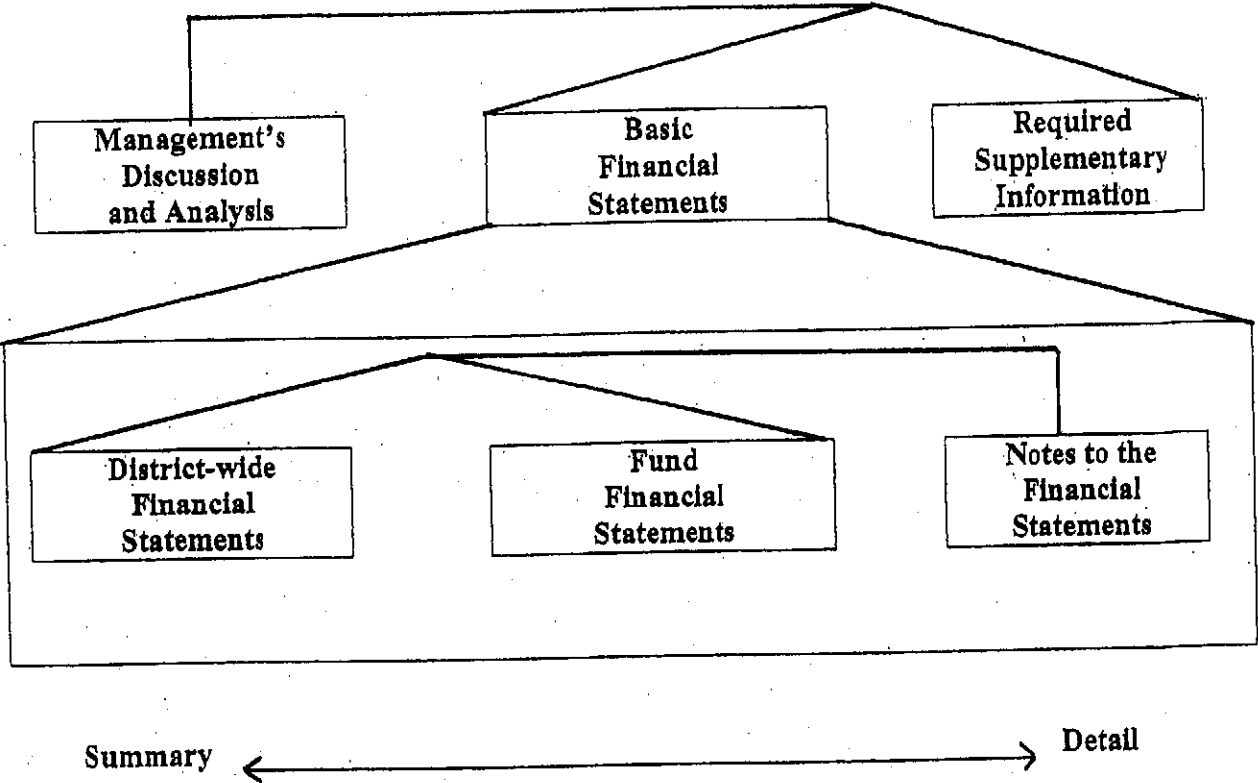

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

Figure A-2
Major Features of the Government-wide and Fund Financial Statements

	Government-wide Statements	Fund Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire District (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Activities the District operates similar to private businesses: food services and adult education	Instances in which the District administers resources on behalf of someone else, such as scholarship programs
Required financial statements	Statement of net assets	Balance sheet	Statement of net assets	Statement of fiduciary net assets
	Statement of activities	Statement of revenues, expenditures and changes in fund balances	Statement of revenues, expenses and changes in fund net assets	Statement of changes in fiduciary net assets
			Statement of cash flows	
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/ liability information	All assets and liabilities, both financial and capital, short-term and long- term	Generally, assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, short-term and long- term	All assets and liabilities, both short- term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/ outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net assets and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition and preschool programs are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Fund.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has two Enterprise Funds, the School Nutrition Fund and the Preschool Fund.

The required financial statements for proprietary funds include a statement of revenues, expenses and changes in fund net assets and a statement of cash flows.

3) *Fiduciary funds*: The District is the trustee, or fiduciary, for assets that belong to others. These funds include a Private-Purpose Trust Fund.

- Private-Purpose Trust Fund – The District accounts for outside donations for scholarships for individual students in this fund.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds includes a statement of fiduciary net assets and a statement of changes in fiduciary net assets.

Reconciliation between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-3 below provides a summary of the District's net assets at June 30, 2009 compared to June 30, 2008.

Figure A-3
Condensed Statement of Net Assets

	Governmental Activities		Business Type Activities		Total District		Total Change
	June 30,		June 30,		June 30,		June 30,
	2009	2008	2009	2008	2009	2008	2008-2009
Current and other assets	\$3,431,116	\$3,259,551	\$76,731	\$56,924	\$3,507,847	\$3,316,475	\$191,372
Capital assets	2,749,611	2,392,096	18,183	19,942	2,767,794	2,412,038	355,756
Total assets	\$6,180,727	\$5,651,647	\$94,914	\$76,866	\$6,275,641	\$5,728,513	\$547,128
Long-term liabilities	\$121,380	\$128,725	\$-	\$-	\$121,380	\$128,725	\$-7,345
Other liabilities	2,497,172	2,121,183	3,677	38,357	2,500,849	2,159,540	341,309
Total liabilities	\$2,618,552	\$2,249,908	\$3,677	\$38,357	\$2,622,229	\$2,288,265	\$333,964
Net assets:							
Invested in capital assets, net of related debt	\$2,749,611	\$2,392,096	\$18,183	\$19,942	\$2,767,794	\$2,412,038	\$355,756
Restricted	197,098	-	-	-	197,098	-	197,098
Unrestricted	615,466	1,009,643	73,054	18,567	688,520	1,028,210	-339,690
Total net assets	\$35,262,175	\$3,401,739	\$91,237	\$38,509	\$3,653,412	\$3,440,248	\$213,164

The District's combined net assets increased by nearly 6%, or \$213,164, over the prior year. The largest portion of the District's net assets is in the "invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt". The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Restricted net assets represent resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net assets increased approximately \$197,098, or 100%, over the prior year. The increase was due to reclassification.

Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – decreased \$339,690, or 33%.

Figure A-4 shows the change in net assets for the year ended June 30, 2009.

Figure A-4			
Changes in Net Assets			
	Governmental Activities	Business Type Activities	Total District
Revenues:			
Program revenues:			
Charges for service	\$672,197	\$195,577	\$867,774

Capital grants, contributions and restricted interest	-	-	-
General revenues:			
Property tax	2,004,729	-	2,004,729
Local option sales and services tax	374,278	-	374,278
Unrestricted state grants	1,815,875	-	1,815,875
Unrestricted investment earnings	21,801	408	22,209
Other	90,995	2,200	93,195
Total revenues	<u>\$5,791,285</u>	<u>\$264,629</u>	<u>\$6,055,914</u>
Program expenses:			
Governmental activities:			
Instruction	\$3,568,869	\$77,178	\$3,646,047
Support services	1,652,743	-	1,652,743
Non-instructional programs	-	212,223	212,223
Other expenses	331,737	-	331,737
Total expenses	<u>\$5,553,349</u>	<u>\$289,401</u>	<u>\$5,842,750</u>
Change in net assets before transfer	<u>\$237,936</u>	<u>\$-24,772</u>	<u>\$213,164</u>

Property tax and unrestricted state grants account for 63% of the total revenue. The District's expenses primarily relate to instruction and support services, which account for 91% of the total expenses.

Governmental Activities

Revenues for governmental activities were \$5,791,285 and expenses were \$5,553,349.

The following table presents the total and net cost of the District's governmental activities: instruction, support services, non-instructional programs and other expenses.

Figure A-5		
Total and Net Cost of Governmental Activities		
	Total Cost of Services	Net Cost of Services
Instruction	\$3,568,869	\$2,110,909
Support services	1,652,743	1,627,096
Non-instructional programs	-	-
Other expenses	331,737	331,737
Totals	<u>\$5,553,349</u>	<u>\$4,069,742</u>

- The cost financed by users of the District's programs was \$867,774.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$877,854.
- The net cost of governmental activities was financed with \$2,379,007 in property and other taxes and \$1,815,875 in unrestricted state grants.

Business Type Activities

Revenues for business type activities were \$264,629 and expenses were \$289,401. The District's business type activities include the School Nutrition Fund and Preschool Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

INDIVIDUAL FUND ANALYSIS

As previously noted, Turkey Valley Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported a combined fund balance of \$3,653,412, comparable to last year's ending fund balance of \$3,440,248.

Governmental Fund Highlights

- The District is trying to curb all unnecessary expenditures while providing excellent educational opportunities for the students.
- The Physical Plant and Equipment Levy (PPEL) Fund balance has increased from \$40,943 to \$97,221, a total of \$56,278.
- The Capital Projects Fund balance has decreased from \$379,509 to \$65,020, a total of \$314,489.

Proprietary Fund Highlights

School Nutrition Fund net assets increased \$14,928. For fiscal 2009, the District did not charge the School Nutrition Fund for all secretarial or custodial help incurred by this program.

BUDGETARY HIGHLIGHTS

The District's Governmental receipts were \$617,732 more than budgeted receipts, a variance of 10.2%. The variance resulted from the District receiving more in local sources than originally anticipated.

Total Governmental expenditures were more than budgeted, due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed actual expenditures for the year.

In spite of the District's budgetary practice, the certified budget was exceeded in the non-instruction programs and other expenditures functional areas due to the timing of expenditures at year-end without sufficient time to amend the certified budget.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2009, the District had invested \$2,767,794, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This represents a net increase of 13% from last year. More detailed information about the District's capital assets is presented in Note 4 to the financial statements. Depreciation expense for the year was \$271,409.

The original cost of the District's capital assets was \$7,383,310. Governmental funds account for \$7,345,889, with the remainder of \$37,421 accounted for in the Proprietary, School Nutrition Fund.

Figure A-6
Capital Assets, net of Depreciation

Long-Term Debt

At June 30, 2009, the District had \$91,408 in general obligation and other long-term debt outstanding. This represents a decrease of 29% from last year. (See Figure A-7) Additional information about the District's long-term debt is presented in Note 5 to the financial statements.

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future.

- The District has experienced declining enrollment for the past years and expects it to continue to decline in the future.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Janice Meyers, Board Treasurer, Turkey Valley Community School District, Jackson Junction IA 52171.

Turkey Valley Community School District

Notes to Financial Statements

June 30, 2009

(1) Summary of Significant Accounting Policies

Turkey Valley Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the predominately agricultural territories and small rural communities in eastern Chickasaw, northwestern Fayette, southern Howard and southern Winneshiek Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U. S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Turkey Valley Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. Turkey Valley Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organization – The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements – The Statement of Net Assets and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management, which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and (2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as non-major governmental funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

The District reports the following major proprietary funds:

The District's proprietary funds are the Enterprise, School Nutrition Fund and Preschool Fund. These funds are used to account for the food service and preschool operations of the District.

The District also reports fiduciary funds which focus on net assets and changes in net assets. The District's fiduciary funds include the following:

The Private Purpose Trust Fund is used to account for assets held by the District under trust agreements which require income earned to be used to benefit individuals through scholarship awards.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year-end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

The proprietary funds of the District apply all applicable GASB pronouncements, as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the balance sheet:

Cash, Pooled Investments and Cash Equivalents – The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½ % per month penalty for delinquent payments; is based on January 1, 2007 assessed property valuations; is for the tax accrual period July 1, 2008 through June 30, 2009 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2008.

Due from Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets – Capital assets, which include property, furniture and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Land	\$ 2,000
Buildings	10,000
Improvements other than buildings	10,000
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	2,000

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives (In Years)
Buildings	50 years
Improvements other than buildings	20 – 50 years
Furniture and equipment	5 – 15 years

Salaries and Benefits Payable – Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred Revenue – Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds as well as property tax receivable and other receivables not collected within sixty days after year-end.

Deferred revenue in the Statement of Net Assets consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Long-term Liabilities – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

Fund Equity – In the governmental fund financial statements, reservations of fund balance are reported for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Restricted Net Assets – In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information.

During the year ended June 30, 2009, expenditures in the non-instructional programs and other expenditures functions exceeded the amounts budgeted.

(2) Cash and Pooled Investments

The District's deposits in banks at June 30, 2009 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2009, the District had investments in the Iowa Schools Joint Investment Trust as follows:

	Amortized Cost
Total	<u>\$ 239,223</u>

The investments are valued at an amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940.

Credit Risk – The investment in the Iowa Schools Joint Investment Trust were rated Aaa by Moody's Investors Service.

(3) Inter-fund Transfers

The detail of inter-fund transfers for the year ended June 30, 2009 is as follows:

Transfer to	Transfer from	Amount
Enterprise -- Preschool	General	<u>\$ 77,500</u>

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

(4) Capital Assets

Capital assets activity for the year ended June 30, 2009 was as follows:

	Balance Beginning Of Year	Increases	Decreases	Balance End Of Year
Governmental Activities:				
Capital assets not being depreciated:				
Land	\$ 31,046	\$ -	\$ -	\$ 31,046
Construction in process	30,829	-	30,829	-
Total capital assets not being depreciated	<u>\$ 61,875</u>	<u>\$ -</u>	<u>\$ 30,829</u>	<u>\$ 31,046</u>
Capital assets being depreciated:				
Buildings	\$ 2,355,545	\$ 471,750	\$ -	\$ 2,827,295
Improvements other than buildings	113,041	95,620	-	208,661
Furniture and equipment	4,186,504	92,383	-	4,278,887
Total capital assets being depreciated	<u>\$ 6,655,090</u>	<u>\$ 659,753</u>	<u>\$ -</u>	<u>\$ 7,314,843</u>
Less accumulated depreciation for:				
Buildings	\$ 733,085	\$ 87,118	\$ -	\$ 820,203
Improvements other than buildings	32,629	8,451	-	41,080
Furniture and equipment	3,559,155	175,840	-	3,734,995
Total accumulated depreciation	<u>\$ 4,324,869</u>	<u>\$ 271,409</u>	<u>\$ -</u>	<u>\$ 4,596,278</u>
Total capital assets being depreciated, net	<u>\$ 2,330,221</u>	<u>\$ 388,344</u>	<u>\$ -</u>	<u>\$ 2,718,565</u>
Governmental Activities Capital Assets, Net	<u>\$ 2,392,096</u>	<u>\$ 388,344</u>	<u>\$ 30,829</u>	<u>\$ 2,749,611</u>
Business type activities:				
Furniture and equipment	\$ 41,670	\$ 1,360	\$ 5,609	\$ 37,421
Less accumulated depreciation	21,728	3,119	5,609	19,238
Business Type Activities Capital Assets, Net	<u>\$ 19,942</u>	<u>\$ -1,759</u>	<u>\$ -</u>	<u>\$ 18,183</u>
Depreciation expense was charged to the following functions:				
Governmental Activities:				
Instruction:				
Regular				\$ 155,723
Special				698
Other				8,849
Support services:				
Instructional staff services				150
Administration				10,172
Operation and maintenance of plant				17,934
Transportation				77,883
Total Depreciation Expense – Governmental Activities				<u>\$ 271,409</u>
Business Type Activities:				
Food service operations				<u>\$ 3,119</u>

(5) **Long-term Liabilities**

Changes in long-term liabilities for the year ended June 30, 2009 are summarized as follows:

	Balance Beginning Of Year	Additions	Reductions	Balance End Of Year	Due Within One Year
Early retirement	\$ 128,725	\$ -	\$ 37,317	\$ 91,408	\$ 13,000

Early Retirement

The District offered a voluntary early retirement plan to its certified employees. Eligible employees must have been at least age fifty-nine and employees must have completed fifteen years of continuous service to the District. Employees completed an application, which was required to be approved by the Board of Education. Early retirement benefits paid during the year ended June 30, 2009 totaled \$37,317.

(6) **Pension and Retirement Benefits**

The District contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits, which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P. O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 4.10% of their annual covered salary and the District is required to contribute 6.35% of annual covered payroll for the years ended June 30, 2009, 2008 and 2007. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2009, 2008 and 2007 were \$188,778, \$173,989, and \$166,248, respectively, equal to the required contributions for each year.

(7) **Other Postemployment Benefits (OPEB)**

The District implemented GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits other Than Pensions during the year ended June 30, 2009.

Plan Description – The District is a member of a twelve school trust – (NEISIT) Northeast Iowa Schools Insurance Trust. Each school provided active and retired employee information. The plan provides medical benefits to retirees and their spouses. The District had 68 active and 6 retired members in the plan. Participants must be 55 or older at retirement.

The medical/prescription drug coverage is provided through a fully-insured plan with Wellmark. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy – The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation – The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2009, the amount actually contributed to the plan and changes in the County's net OPEB obligation:

Annual required contribution	\$ 29,972
Interest on net OPEB obligation	-
Adjustment to annual required contribution	-
Annual OPEB cost	<u>\$ 29,972</u>
Contributions made	-
Increase in net OPEB obligation	<u>\$ 29,972</u>
Net OPEB obligation beginning of year	-
Net OPEB obligation end of year	<u>\$ 29,972</u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2008. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2009.

For the year ended June 30, 2009, the District contributed \$0 to the medical plan. Plan members eligible for benefits contributed \$0 of the premium costs.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2009 are summarized as follows:

Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2009	\$29,972	0%	\$29,972

Funded Status and Funding Progress – As of July 1, 2008, the most recent actuarial valuation date for the period July 1, 2008 through June 30, 2009, the actuarial accrued liability was \$454,922, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$454,922. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$2,676,287, and the ratio of the UAAL to covered payroll was 17%. As of June 30, 2009, there were no trust fund assets.

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of July 1, 2008 actuarial valuation date, the unit credit actuarial cost method was used. The actuarial assumptions include a discount rate based on the funding policy. The projected annual medical trend rate is 6%.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2007 and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2007.

Projected claim costs of the medical plan are \$430.47 per month for retirees less than age 65. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

(8) Risk Management

Turkey Valley Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(9) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$184,893 for the year ended June 30, 2009 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

(10) Commitments

The District has entered into a contract totaling \$308,800 for a science rooms project. At June 30, 2009, the balance of \$165,597 will be paid in the 2009-2010 school year.

The District signed a Capital Note with Bank Iowa for \$300,000 in July 2009 for a science rooms project.

Turkey Valley Community School District
Notes to Required Supplementary Information – Budgetary Reporting
Year Ended June 30, 2009

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula.

During the year ended June 30, 2009, expenditures in the non-instructional programs and other expenditures functions exceeded the amounts budgeted.

**Independent Auditor's Report on Internal Control over Financial Reporting
and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance with Government Auditing Standards**

Independent Auditor's Report on Internal Control over Financial Reporting
and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance with Government Auditing Standards

To the Board of Education of
Turkey Valley Community School District:

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Turkey Valley Community School District as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued my report thereon dated December 23, 2009. I conducted my audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Turkey Valley Community School District's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing my opinion on the effectiveness of Turkey Valley Community School District's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of Turkey Valley Community School District's internal control over financial reporting.

My consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, I identified certain deficiencies in internal control over financial reporting that I consider to be significant deficiencies and other deficiencies I consider to be material weaknesses.

A control deficiency exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Turkey Valley Community School District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with U.S. generally accepted accounting principles such that there is more than a remote likelihood a misstatement of Turkey Valley Community School District's financial statements that is more inconsequential will not be prevented or detected by Turkey Valley Community School District's internal control. I consider the deficiencies in internal control described in Part II of the accompanying Schedule of Findings to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies that results in more than a remote likelihood a material misstatement of the financial statements will not be prevented or detected by Turkey Valley Community School District's internal control.

My consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, of the significant deficiencies described above, I believe item I-A-09 is a material weakness.

Compliance and Other Matters

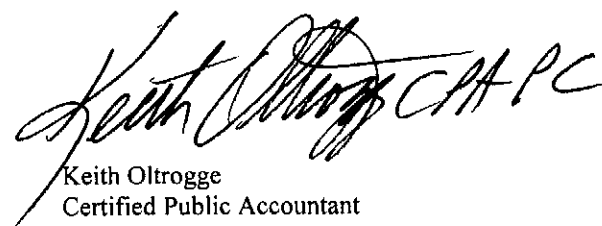

As part of obtaining reasonable assurance about whether Turkey Valley Community School District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, I noted certain immaterial instances of non-compliance or other matters that are described in Part II of the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2009 are based exclusively on knowledge obtained from procedures performed during my audit of the financial statements of the District. Since my audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Turkey Valley Community School District's responses to findings identified in my audit are described in the accompanying Schedule of Findings. While I have expressed my conclusions on the District's responses, I did not audit Turkey Valley Community School District's responses and, accordingly, I express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Turkey Valley Community School District and other parties to whom Turkey Valley Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

I would like to acknowledge the many courtesies and assistance extended to me by personnel of Turkey Valley Community School District during the course of my audit. Should you have any questions concerning any of the above matters, I shall be pleased to discuss them with you at your convenience.

Turkey Valley Community School District

Schedule of Findings

Year Ended June 30, 2009

Part I – Findings Related to the Financial Statements:

INSTANCES OF NON-COMPLIANCE:

No matters were reported.

REPORTABLE CONDITIONS:

- I-A-09 Segregation of Duties – One important aspect of internal control is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. I noted that one person has control over each of the following areas for both the General and Activity Funds: cash receipts – collecting, depositing, journalizing, posting and reconciling.

Recommendation – With the limited number of personnel involved in accounting for District activity, an ideal system of segregation of accounting duties and functions cannot be achieved to assure adequate internal control over the safeguarding of assets and the reliability of financial records and reporting. This is not unusual in an organization of your size. Under these circumstances, the most effective controls lie in (1) the administration's and the Board's knowledge of the District's financial operations and (2) striving to obtain as much segregation of duties as possible so that no one person has complete control of any type of financial transactions. I believe these controls are being effectively utilized in the District and recommend that diligent efforts be made to maintain their effectiveness.

Response – With the number of staff available to this size of District, we will have to continue operating as in the past. We will, however, continue to monitor and keep the Board aware of the District's financial operations.

Conclusion – Response accepted.

- I-B-09 Annual Financial Statements – The ability to apply generally accepted accounting principles to the financial statements and determine the sufficiency of the footnote disclosure is a necessary aspect of internal control over the District's financial reporting process. The District does not possess an individual with the appropriate expertise to apply generally accepted accounting principles to the financial statements and to draft and determine the sufficiency of the necessary disclosures. The District has a limited number of employees and it is not cost beneficial to employ an individual with this type of expertise and knowledge. The internal financial statements prepared by the District are not prepared in accordance with generally accepted accounting principles and do not contain the required footnote disclosures.

Recommendation – This is common control deficiency of most small Districts and is often not corrected due to cost benefit considerations. I could assist you in gaining the necessary knowledge and skills if you determine that this is a control deficiency that the District would like to address.

Response – We will consult with you as needed on financial statement considerations.

Conclusions – Response accepted.

Turkey Valley Community School District

Schedule of Findings

Year Ended June 30, 2009

Part II - Other Findings Related to Statutory Reporting:

II-A-09 Certified Budget – Expenditures for the year ended June 30, 2009 exceed the amended certified budget amounts in the non-instruction and other expenditure functions.

Recommendation – The certified budget should have been amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

Response – Future budgets will be amended in sufficient amounts to ensure the certified budget is not exceeded.

Conclusion – Response accepted.

II-B-09 Questionable Expenditures – No expenditures that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.

II-C-09 Travel Expense – No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

II-D-09 Business Transactions -- No business transactions between the District and District officials or employees were noted.

<u>Name, Title & Business Connection</u>	<u>Transaction Description</u>	<u>Amount</u>
Robert Huinker, employee	Piano tuning	\$250

In accordance with an Attorney General's opinion dated November 9, 1976, the above transaction does not appear to represent a conflict of interest.

II-E-09 Bond Coverage – Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure the coverage is adequate for current operations.

II-F-09 Board Minutes – No transactions requiring Board approval which had not been approved by the Board were noted.

II-G-09 Certified Enrollment – No variances in the basic enrollment data certified to the Department of Education were noted.

II-H-09 Deposits and Investments – No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.

II-I-09 Certified Annual Report – The Certified Annual Report was filed with the Iowa Department of Education timely.

II-J-09 Electronic Check Retention – Chapter 554D.114 of the Code of Iowa allows the District to retain cancelled checks in an electronic format and requires retention in this manner to include an image of both the front and back of each cancelled check. The District retains cancelled checks through electronic image, but does not obtain an image of the back of each cancelled check as required.

Recommendation – The District should obtain and retain an image of both the front and back of each cancelled check as required.

Response – The District will obtain and retain images of both the front and back of cancelled checks as required. The District can go on line at any time and see/print the back side of any check.

Conclusion – Response accepted.

II-K-09 Categorical Funding – No instances were noted of categorical funding being used to supplant rather than supplement other funds.

II-L-09 Statewide Sales and Service Tax – No instances of non-compliance with the use of the statewide sales and services tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales and services tax. For the year ended June 30, 2009, the District's financial activity and other required information for the statewide sales and services tax are as follows:

Beginning balance	\$ -
Statewide sales and service tax revenue	374,278
Expenditures/transfer out:	
School infrastructure:	
Other improvements	<u>703,054</u>
Ending balance	<u>\$ -328,776</u>
